

Permanent Mission of Hungary to the OSCE, the UN and
other International Organizations in Vienna

Statement
delivered by the representative of Hungary at
the 1100th Plenary Meeting of the Forum for Security Co-
operation
(Agenda item: General Statements)

Vienna, 5 March 2025

Thank you, Mr. Chair,

As a neighbouring country of Ukraine, Hungary has always followed developments with great concern. The conflict in Ukraine resulted in a dire situation for millions of people.

In this regards, we welcome that the new US Administration has the determination to put an end to this senseless war. Hungary supports the UN Security Council Resolution 2774 adopted on 24 February which signals a new phase in the history of the conflict. Hungary has always been supporting the diplomatic settlement of the war and we will continue to do that, including here in the OSCE

Thank you, Mr. Chair.
