

United States Mission to the OSCE

Statement on Russian Drone Incursion into Poland

As delivered by Chargé d’Affaires Kate Rebholz
to the Permanent Council, Vienna
September 11, 2025

We share the concerns that have been expressed with regard to the recent violation of Poland’s airspace. The United States praises the rapid and effective defensive response by pilots of NATO member states.

We stand by our NATO Allies in the face of these airspace violations and will defend every inch of NATO territory.
